ADDENDUM 15-042 TO DETERMINATION OF NONSIGNIFICANCE 01-062 DATED: JULY 3, 2001

Name of DNS: 01-062 DROUGHT-RELATED FISH PROTECTION PROJECTS

Description of Original Proposal:

The proponent proposes to utilize six different methods to alleviate fish passage impacts during the coming summer and fall months if drought conditions require action to be taken. Depending on the severity of the drought and stream-flow conditions, the number of projects or locations will vary, and are difficult to predict. The potential projects include: installation of weirs/traps, installation of fishways/fish ladders, temporary channel modifications, maintenance of pump intakes and sumps, modification of some permanent structures and diversions, and beaver dam modifications. A list of projects is attached along with potential streams and rivers that may be affected.

Previous Addendum 05-041 dated May 4, 2005:

(1) **Name of Proposed Project:**

DROUGHT-RELATED FISH PROTECTION PROJECTS FOR 2001

(2) **Address and phone number of applicant and contact person:**

~~Steve Keller~~, Drought Response Coordinator, 600 Capitol Way N. Olympia WA
98501-1091- Phone: (360) 902-2241

(6) **Proposed timing or schedule:**

Various Drought Related projects are anticipated throughout the state as long as the drought persists. Projects are expected to be implemented from late June through November 2001, in years of state declared drought status.

Description of Addendum 15-042:

Description of Drought Related Projects and Locations Proposed by WDFW

The ~~following~~ attached Table 1 is a list of projects watersheds within which projects described in this document are anticipated to be necessary to ~~provide free passage of fish and operation of fishways and hatchery facilities~~ remediate drought-related low flow fish mitigation blockages throughout the state as a result of ~~2001~~ a state declared drought. This list was derived from experience with previous droughts such as those which occurred in 1977, ~~and~~ 1994, ~~and~~ 2001, and 2005.

Table 1.

Lead Agency: Washington Department of Fish and Wildlife

This addendum is being distributed pursuant to WACs 197-11-600 and 197-11-625. The updated information provided above does not substantially change the analysis of significant impacts in the existing environmental checklist. Based on the original DNS and the updated information provided in this addendum, we have determined that a new threshold determination is not warranted. There is no comment period associated with this SEPA addendum.
